## AROUND THE WORLD

OXFORD is a remarkable British success story!

For over four decades the company has waved the flag for British ingenuity and innovation and is proud to have distribution partners in all corners of the globe.

In return, foreign markets have provided many fresh ideas to OXFORD's product range; the challenges of widely varying climates, customs and terrain have only served to enrich the company's offering.

You will find a full distributor list at [www.oxfordproducts.com](http://www.oxfordproducts.com). Please contact us for further information: Tel: (+44) 1993 862 300 Fax: (+44) 1993 862 320

For export trade enquiries you can also email us at [export@oxprod.com](mailto:export@oxprod.com).

## OXFORD USA

2012 saw the creation of Oxford Products USA. A dedicated sales, marketing and distribution facility has rapidly accelerated the availability of OXFORD's wide range of products to all corners of the Americas.

# RACING

# BLOOD IN THEIR VEINS

The phenomenal success of OXFORD Products owes so much to their passion and belief in motorcycle racing. From that first year in 1973 until the present day OXFORD has supported the riders and the sport.

Christian Iddon and Bradley Smith are among the latest riders to have benefited from this passion and joins the likes of eight times World Champion Phil Read, TT winners Steve Hislop, Robert Dunlop, Jim Moodie and Trevor Nation, grand prix winner Jeremy McWilliams in addition to British Championship stars Mark Farmer, Paul Young, Glen Richards, Asa Moyce, Geoff Johnson and Les Borgan on the Oxford Products Roll of Honour.

# COMPANY TIMELINE

- 1973** Present owner and chairman Alec Hammond starts selling GRP motorcycle top boxes out of the back of his car before progressing to a scruffy transit van. First customer is Harpers of Cowley, still going strong in the very same building!
- 1974** Fairings expand the product range and Alec starts recruiting staff to cope with business growth.
- 1975** Launch of complete seat & tank unit for FSIE.
- 1976** Track involvement begins with own race team: Les Burgan, Asa Moyce, Mike Hunt, Geoff Johnson all ride for Team Oxford.
- 1977** Based in Botley, on the edge of Oxford, now with proper warehouse and office complex and operating with both HQ staff and field representatives. The company's range now includes mufflers, saddle bags, seat re-covering kits and its first security device: Bike Guard.
- 1978** Oxford produces carbon fibre bodywork for Mike Hailwood to use at the TT.
- 1981** Botley HQ wiped out by a fire caused by faulty electrical components. Phil Read rides the Oxford Yoshimura Suzuki at the TT.
- 1982** Relocation to Abingdon, business starts again almost from scratch with support from valued friends, staff and associates.
- 1983** Oxford "HotGrips" are born, the start of a legend!
- 1984** Re-built business moves to new premises in Kidlington and sponsors Trevor Nation's first ever TT win.
- 1985** International sourcing begins and range expands quickly. Over the next period, lock development moves on apace and Oxford quickly becomes market leader in bicycle security with the "Sentinel" range of U-locks.
- 1990** Business continues to grow strongly, acquiring more premises in the same industrial estate and expanding its quality team of staff.
- 1991** Oxford Ducati Team is launched with some now well-known names riding; among them Trevor Nation, Robert Dunlop, Steve Hislop, Jim Moodie and Jeremy McWilliams.
- 1994** Oxford launches its first Disc Lock, the "Quartz" and sales spiral internationally.
- 1997** Launch of revolutionary "Oxford Lifetime Luggage" enables company to become UK market leader in soft luggage almost overnight and globally recognised within two years.
- 1998** Oxford is appointed exclusive UK distributor for HJC helmets, at that time the biggest selling helmet brand in the US, but with almost no representation in Europe. First track signing is Steve Plater on the Sanyo Honda and HJC's race involvement increases every year thereafter.
- 2004** Company moves to large, purpose-built premises in Witney, Oxfordshire. Local schoolboy Bradley Smith is sponsored to ride in HJC helmets.
- 2005** Launch of a specific cycle products division - selling Oxford branded products to regional and national wholesalers - reinvigorates this side of the business.
- 2006** Oxford creates new helmet brand: BOX helmets.
- 2009** Oxford sponsors 125cc GP race winner Bradley Smith.
- 2010**
- Company purchases cycle parts distributor Sprint CPA, injecting further growth into cycle division.
  - Appointed UK distributor for global brands Alpinestars, Muc-Off and Silme.
  - HJC has its first world champion in Ben Spies in WSB, spurring the brand onto even greater things.
- 2011**
- Title sponsorship of Oxford TAG Triumph British Supersport race team places Oxford firmly back in the BSB paddock, to add to sponsorship of the Buildbase BMW BSB team, Bradley Smith in Moto 2 and many more.
- 2012**
- Company wins exclusive distribution for Muc-Off in the motorcycle market.
  - Oxford Products USA opens its doors.
  - Launch of B2B website.
  - Voted by dealers "BDN Wholesaler of the Year" & "MCN Wholesaler of the Year".
  - Oxford-sponsored Bradley Smith finishes stint in Moto 2 and takes first steps into the Moto GP paddock.
  - Nick Sanders, global 2 wheel adventurer, becomes Oxford's first non-race brand ambassador.
- 2013**
- The company's 40th Anniversary is celebrated with its biggest ever line-up of new products and brands:
  - "HotGrips" 30th Anniversary celebrated with an all new range of technically superior products and record sales. Oxford launches its first full clothing range: Oxford Essential Rider Wear receives an incredible response from dealers nationwide and distributors across the globe.
  - Oxford invests in 3D printer to improve and accelerate product development and wins "Large Business of the Year" in the Oxfordshire Business Awards to cap off another record year for the business.
- 2014**
- Prime Minister David Cameron officially opens the company's 100,000 sq ft expanded warehouse and office complex at a Grand Opening Ceremony which saw guests come from as far afield as Australia, Canada and all corners of Europe.
  - Oxford takes on exclusive distribution for the UK motorcycle market of global eyewear and fashion brand Oakley and launches a huge new clothing range alongside a new brand icon, which definitely gives it the X factor!
  - Company wins Oxfordshire Business of the Year, while MD Andrew Hammond wins Oxfordshire Business Person of the Year!
  - Another record year is capped off by the 2014 Motorcycle News Distributor of the Year award.
- 2015**
- 2015 starts well with dealers voting Oxford as Distributor of the Year in both motorcycle trade magazines, British Dealer News and Motorcycle Trader.
  - Oxford clothing continues to prove a huge hit, with new waxed cotton lines selling out and a new range of one and two-piece leathers a success story from the get-go.
  - Further expansion of the company's product design department; the huge investments being in product development visibly pay off with a constant flow of exciting new products into the motorcycle and bicycle markets.
  - Oxford launches new BSB race support service with paddock veteran Matt Randalls at the helm.
  - This is accompanied by major race sponsorship deals with TYCO BMW, Buildbase BMW and Quattro Plant Kawasaki which yield unprecedented publicity for the brand.
  - HJC helmets and, for the first time ever, Oxford race leathers follow suit with top-to-toe support packages for top flight riders Michael Laverty and Christian Iddon in BSB.
  - HJC-backed Jorge Lorenzo wins third Moto GP championship!
  - Year ends with yet another record turnover and a second successive Motorcycle News Distributor of the Year award!

## INTRO

- 2016**
- Oxford targets significant further growth, both in its traditional markets and through diversification.
  - The team grows once again and Oxford passes the 100 staff milestone.
  - The company agrees a deal to be the exclusive distributor for Bull-it jeans & protective wear.
  - Oxford Products USA continues to build on its success and the company's export department enjoys massive growth, signing a 16 country distribution deal with Shimano Europe.
  - A new commercial head of Oxford's cycle division is recruited to push the brand and the business forward and into many more outlets. Consequently, a new sales team hits the road.
  - Race involvement continues to grow, feeding product development and raising the profile of Oxford & HJC brands. TYCO BMW, Quattro Cool Kawasaki and Buildbase BMW deliver for Oxford both in British Superbikes and on the roads. Michael Laverty & Christian Iddon continue to spearhead Oxford BSB presence.
  - New consumer website and B2B system launched. Company continues its unbroken run of record months to end the year with 27 on the trot!
  - Oxford celebrates 40 years of involvement in racing by announcing a record level of support for the sport in 2017.
- 2017**
- The year starts with a bang, eventually going on to maintain a three year unbroken run of record months.
  - Oxford buys Tri-Motive Ltd, a small specialist distributor of motorcycle brands based in Swansea, Wales. The Oxford Group of Companies concept is formed, with Oxford Products USA creating a triumvirate. Significant investment in much-needed stock and staff is rewarded by impressive growth all round.
  - In-house design capability goes up another gear, with the addition of a Compliance Manager, a Garment Technologist, a Technical Clothing Designer, another Graphic Designer and more experienced Product Category Managers. Product development and quality assurance are further enhanced by the development of a Product Test Laboratory.
  - The team celebrates the 25th anniversary of Oxford Team Ducati's last appearance at the Isle of Man TT by recreating the team for the 2017 Classic TT. Despite having the best turned out team and good speed in practise thanks to rider James Hillier, a stray stone through the crank case put pay to the Ducati on lap two!
  - 2017 ends with each business from the Oxford Group of Companies enjoying record sales and profitability, both at home and abroad, providing the perfect platform for investment in growth for 2018 and beyond.
- 2018**
- Oxford invests to maintain its dominant position by launching a new concept of 'Advanced Accessories', with new premium packaging and fully LED-lit display systems designed to elevate the brand.
  - Oxford launches its first range of cleaning and maintenance products under the name "MINT"; the product is targeted at Oxford's international markets and is offered with a very smart, dedicated display unit.
  - The company makes plans to once again expand its Witney HQ, to accommodate further significant growth.

# OXFORD ON TRACK IN 2018

Oxford celebrates its 45th anniversary in 2018 by announcing a record level of support for the motorcycle sport. The iconic logo will adorn no fewer than 8 top bikes in the premier classes of BSB, plus 3 of the front runners in road racing and an entire team at the Isle of Man Classic TT. The company's race service will support over 30 BSB championship riders using HJC helmets.

## ISLE OF MAN CLASSIC TT

- OXFORD celebrated the 25th anniversary of Oxford Team Ducati's last appearance at the Isle of Man TT by recreating the team for the 2017 Classic TT.
- Despite having the best turned out team and good speed in practise, thanks to rider James Hillier, a stray stone through the crank case put pay to the Ducati on lap two!
- The team plans to return in 2018 with not one, but two Ducatis... along with two top riders, including James Hillier.

## TYCO BMW

- TYCO BMW return to attack the 2018 Superbike championship with Christian Iddon and Michael Laverty.
- Keith Farmer will compete to win the Superstock championship, while Dan Kneen will spearhead TYCO BMW's road campaign.
- Christian remains an Oxford ambassador, protected by Oxford leathers and HJC helmets.

## BOURNEMOUTH KAWASAKI

- Bournemouth Kawasaki has once again teamed up with JG Speedfit for 2018 to run the official factory-backed Kawasaki race campaign.
- The team will retain Leon Haslam and Luke Mossey to spearhead an assault on the 2018 British Superbike Championship. They will also retain 2016 British Sidecar champions Ricky Stevens and Ryan Charlwood, who will continue to be HJC helmet ambassadors as they attempt to secure their third championship.

## HAWK RACING

- Hawk Racing will run Buildbase Suzuki's 2018 British Superbike team racing the CSX-R1000 with Bradley Ray and Richard Cooper on the Superbikes and Billy McConnel on the Superstock bike. <http://www.buildbasesuzuki.co.uk/>
- Hawk Racing will also look to add to their tally of road racing trophies in 2018, details yet to be announced...

# INTRO

## CHRISTIAN IDDON

Wearing Oxford leathers & HJC helmets

- A relative newcomer to tarmac, having won multiple British Supermoto Championships in his early career, Christian Iddon joined TYCO BMW in 2015 and quickly showed his natural pace, leading the British Superbike Championship during the early rounds.

- In a repeat of his 2016 campaign, a freak accident deprived Christian of three critical rounds mid-season, which forced a late surge for a place in the top 6 show-down... which he missed by a whisker.

- Better known for his openness and straight-talking than his modelling, Christian produces some excellent short video blogs after each round describing his weekend's work.

- Straight out of Stockport, Christian is never happier than when tucking into a bowl of porridge or downing a 'brew'... except when making something on a building site, perhaps.

- Ever self-deprecating, his website tags him a 'complete loon' but he's clever too; his mantra "in the endless pursuit of success" is scribed in Latin on his leathers!

- Christian returns to TYCO in 2018 with a clear opportunity to challenge for the BSB crown. Healthy competition within TYCO will come from returning team-mate Michael Laverty, but the no.24 rider relishes his position as Philip Neill's no.1 rider.
- Christian is a massive fan of the film Cars! He was delighted when HJC brought out a Lightning McQueen helmet, he not only bought this but a matching car too!

Find out more on Christian's swanky new website [www.christianiddon.com](http://www.christianiddon.com)

# OXFORD TRIED & TESTED

## OXFORD SUPPORT FOR CSS IN 2018

IN ACTION...

California Superbike School's UK team of professional coaches will once again be wearing HJC RPHA race helmets this season. OXFORD also uses CSS' facilities to test its racing products under track conditions. Its RPI and RP2 race suits and gloves can be seen in use on these pages...

California Superbike School UK is the first specialist on-track rider training provider in the UK to be awarded 'Gold Standard' accreditation under a new framework to recognise the facilitation of structured on-track rider training and consultancy services to the Motorcycle Rider Training Industry.

This prestigious new accreditation from the MCIAC (Motorcycle Industry Association Accreditation Centre) recognises and promotes specialist on-track rider training providers and the California Superbike School achieved the highest classification awarded by the MCIAC, the Gold standard – setting the benchmark for professional on-track motorcycle training with superior facilities and equipment within the UK.

Founded by the legendary Keith Code in 1980, the California Superbike Schools are dedicated to discovering, improving and refining the art of cornering. UK-based coaches are also responsible for students in Europe, Scandinavia, the Middle East, India and South Africa, operating from premises on the Silverstone Technology Park.

Back in 2014 following on-track testing at Yas Marina Circuit in Abu Dhabi, the senior coaching staff opted for HJC helmets because of their excellent fit and specification:

"HJC's box-ready race helmet comes with all the toys included; Pinlock, tear-off ready visor with integrated lock and spare tinted visor," explains CSS General Manager Richard 'Badger' Browne. "When you're on track for 10 hours a day in climates as diverse as the UK and Africa, you need a helmet that's not only protective, but comfortable and well put together too. These HJCs fit the bill perfectly."

Details of the 2018 schedule and courses available can be found at [www.superbikeschool.co.uk](http://www.superbikeschool.co.uk) or telephone 08700 671 061 for a brochure.

## OXFORD IS DELIGHTED TO RECONNECT WITH CONSTANT ADVENTURER NICK SANDERS

Oxford is proud to have supported Nick's latest adventure, riding from his home town of Machynlleth to Mongolia. The big difference in this particular journey was that he hadn't got a real plan of which way he was going to get to Mongolia... he was leaving that up to you!

Oxford has enjoyed a relationship with Nick in the past and feel that it's the right time to reconnect with the maverick adventurer to showcase the RIDE 'Best Buy' awarded, UK designed Montreal riding suit and associated kit. Marketing Manager Simon Belton said 'Nick has a huge following and is well placed to give our rider wear and accessories the ultimate recommendation, giving our customers extra confidence in our great products'.

From the portfolio of kit that Oxford distributes, Nick picked out the new-for-2017 HJC RPHA 70 helmet with its integral sun visor, and along with the Montreal riding suit, Nick wore Explorer boots and Voyager gloves. It got cold at night so Nick also chose to take some Warm Dry thermal layers and a Chillout windproof shirt.

In addition to riding kit, Nick took advantage of Oxford's 'Essential' range, packing things that he hopes he won't need on the journey - Oxford CO2 tyre repair kit, AirGauge pressure gauge, Three in One chain tool and a complete spanner set.

Nick Sanders

# PRODUCT DESIGN & ENGINEERING

## DESIGN DEVELOPMENT PROCESS

At its heart, Oxford is a products company – Oxford Products!

The team develops its products in-house, increasingly through the use of Computer Aided Design. In order to maximise the benefits of CAD, the company has invested in the latest 3D print technology. This means that a product or component designed today can be printed off overnight and tested tomorrow. The day after, our factory can be making the moulds and production can begin shortly after. In this way, product development time is dramatically reduced and the end result far more relevant and ambitious. Here is a typical design cycle for an Oxford product...

### 1 INITIAL SKETCHED CONCEPTS

2D Sketches

### 2 SCHEMATIC LAYOUT

Functional concept review

### 3 PATENT DIAGRAMS

Patent draft & review

### 4 SOLID MODELLING

3D surfacing, 3D data files, driving, mould tools, & CNC machining

### 6 TECHNICAL DRAWING

General arrangement, component details & tolerance analysis

### 5 MECHANICAL DESIGN

Plastic mouldings, mechanisms, fabrication & tooling

# INTRO

## 9 3D PRINTED PARTS

Prototype models, mechanical evaluation, functional product testing

## 8 DESIGN ANALYSIS

Finite element analysis (FEA), tolerance analysis failure mode, & effects analysis (FMEA)

## 7 VISUALISATION

Photorealistic product rendering

## 10 PRODUCT TESTING

Products are put through their paces in our in-house testing facility

## 11 FINISHED PRODUCT

# OXFORD LUGGAGE OVERVIEW

Oxford has created a comprehensive collection of luggage for both on and off your motorcycle. Here are the ranges:

Oxford's Lifetime Luggage is the jewel in its crown, benefitting from 20 years of passionate development since its launch in 1997. Most bags look roughly the same from the outside, differentiated only by the styling, number of pockets and a few handy features. The difference between a good bag and a GREAT bag is what you don't see at first glance; the material composition, construction methods, waterproofing systems, safety mechanisms, tried and tested componentry and built-in real-world usability. You don't need to know that Oxford's test laboratory has specified, amongst other things: flag-stitched stress points; taped waterproof liners; innovative and over-engineered security straps; tough outer materials to battle the elements; soft touch-point materials to protect your bike; bright interiors for better content visibility; self-healing zippers; comprehensive user guidelines. You'll carry on not needing to know for years and years... which is why Oxford Lifetime Luggage comes with an unparalleled Lifetime Guarantee.

Oxford's Aqua bags are one of the easiest ways to get your gear from A to B on a motorcycle, safe and dry. They are made from a tough PVC tarpaulin, which is welded to form waterproof seams. When straps are added to perform essential functions (such as securing the bag onto a motorcycle), Oxford uses innovative construction techniques to further reinforce the bag whilst ensuring complete waterproofing. The latest generation of Oxford's acclaimed Aqua luggage now offers a choice of four useful tail bag sizes - from commuter 20-, through 'short-trip' 30- to 'epic voyage' 70-litre versions - plus a range of backpacks.

This vintage-styled waxed cotton luggage uses traditional materials and manufacturing techniques to recall a time when people worked and played outdoors, come rain or shine. But hidden beneath the old-world look is a hidden layer of modern technology, to offer a user experience to match today's demanding expectations. The bags' key material is a dry waxed cotton, a modern take on the traditional sail cloth which found its way into the clothing which sailors wore to protect themselves from the salt water and wet weather. The dry wax application is applied to all outer materials including the straps and has the very real benefit of not coming off on your hands when moving, fitting and using the luggage. Respectful of the material's heritage, Oxford's designers have employed traditional methods to assemble the bags. For example, pockets are pleated in order to lie flat when empty, but provide space to expand when full; flag stitches secure all the straps and strapping points to the main structure of the bag; the roll top closure is both traditional and the best way to seal the bags against rain. Inside the bags, however, you will find a very modern removable waterproof liner which uses taped seams to guarantee that the contents remain dry, even when the outer material has been drenched. Similarly, the luggage employs Oxford's most up-to-date fitting system to ensure that it can be secured to the bike safely, with all necessary fittings supplied. The result is a wholly user-friendly product which does the job whilst looking the part.

# LUGGAGE

Oxford's F1 luggage provides an economical alternative to the Lifetime range, with all the essential features and a few more besides. The bags retain all Oxford's approved construction methods, waterproofing systems and safety mechanisms in a wide range of styles and sizes to suit most bikes. The range also boasts a unique feature. Five colour swatches are provided for you to colour-match to your bike; simply insert your chosen colour into the windows provided!

Where do you put your motorcycle gear where it won't contaminate your everyday clothing, but doesn't end up getting damp, covered in dust or infested by critters? The answer: store your motorcycle leathers, textiles and gear in a protective, breathable storage bag. Oxford's Stash & Sack collection is made from durable lined fabric and are universally sized.

## IMPORTANT INFO

- Because we ride bikes we understand that motorcycle luggage needs to be adjustable, so that it can be fitted to a wide variety of machines and must be made from durable, weatherproof material. It also needs to offer decent carrying capacity and to look good. We are never complacent and every year we build more features into our design. All this explains why we are today a successful global motorcycle luggage brand.
- OXFORD LIFETIME LUGGAGE is designed by motorcyclists in the UK. We are so confident of its quality and durability that we guarantee it against faulty manufacture or materials for life! The Lifetime Guarantee does not, however, extend to rain covers, buckles and zip tags, which are covered under our usual warranty. Nor does it insure against reasonable wear and tear or failure to properly care for/maintain the product.
- Read the user recommendations carefully before use to enjoy this luggage safely and to its full capacity.
- If you need advice on which bags are best suited to your riding needs, please don't hesitate to call our customer services team on **01993 862 300**.

# QUICK RELEASE

# AQUA-T

## ALL-WEATHER ROLL BAGS

Oxford's Aqua bags are one of the easiest ways to get your gear from A to B on a motorcycle, safe and dry. They are made from a tough PVC tarpaulin, which is welded to form waterproof seams. When straps are added to perform essential functions (such as securing the bag onto a motorcycle), Oxford uses innovative construction techniques to further reinforce the bag whilst ensuring complete waterproofing. The latest generation of Oxford's acclaimed Aqua luggage now offers a choice of four useful tail bag sizes - from commuter 20-, through 'short-trip' 30- to 'epic voyage' 70-litre versions - plus a range of backpacks.

/OxfordproductsLtd

### FEATURES

- Easy grab carry handles
- Waterproof roll top closure
- External and internal pockets for small items
- Wipe-clean, waterproof construction with welded seams
- Padded shoulder strap for added comfort
- Front mesh pocket for storing damp items
- Unique attachment system for motorcycles with underseat security strap
- Reflective detailing for improved visibility
- Compression straps for maximum stability
- Suitable for use on motorcycles

### RIDE AQUA-T 50

"The middle sized of oxford's Aqua packs is great value and arguably the most practical."

Ease of fitting: 4  
Loading: 4

Stability: 5  
Waterproofing: 5

### MCN AQUA-T 30

"Swallows up your weekend gear...  
...It's a great bit of kit."

Tester: Alison Silcox  
Time Tested: 700 miles

**WARNING:** Read fitting guidelines before use

## HERITAGE

### PREMIUM MOTORCYCLE LUGGAGE

**HERITAGE BAGS - old-world styling, modern usability.**

This vintage-styled waxed cotton luggage uses traditional materials and manufacturing techniques to recall a time when people worked and played outdoors, come rain or shine. But hidden beneath the old-world look is a hidden layer of modern technology, to offer a user experience to match today's demanding expectations.

The bags' key material is a dry waxed cotton, a modern take on the traditional sail cloth which found its way into the clothing which sailors wore to protect themselves from the salt water and wet weather. The dry wax application is applied to all outer materials including the straps and has the very real benefit of not coming off on your hands when moving, fitting and using the luggage.

Respectful of the material's heritage, Oxford's designers have employed traditional methods to assemble the bags. For example, pockets are pleated in order to lie flat when empty, but provide space to expand when full; flag stitches secure all the straps and strapping points to the main structure of the bag; the roll top closure is both traditional and the best way to seal the bags against rain.

Inside the bags, however, you will find a very modern removable waterproof liner which uses taped seams to guarantee that the contents remain dry, even when the outer material has been drenched.

Similarly, the luggage employs Oxford's most up-to-date fitting system to ensure that it can be secured to the bike safely, with all necessary fittings supplied.

The result is a wholly user-friendly product which does the job whilst looking the part.

**50,000 BIKES STOLEN**  
**61% UNSECURED**

**LOCK IT UP**

## **OXFORD** SERIOUS ABOUT REDUCING MOTORCYCLE THEFT.

Motorcycles are fundamentally more vulnerable to theft than most other forms of transport, but they need not be.

The use of a good lock will protect a motorcycle against most forms of attack and reduce the theft rate dramatically.

Incredibly, motorcycle security experts still believe that well over half of all motorcyclists use no form of physical security other than the steering lock, which itself offers very little resistance to a determined attack.

Furthermore, just like an alarm or an immobiliser, the steering lock does not prevent thieves from simply lifting the motorcycle into the back of a van and transporting it to a garage where they can re-mobilise the bike at their leisure.

These figures are supported by recent research carried out by Oxford Products Ltd in the UK's capital London, the UK's worst theft hotspot. A survey of 736 bikes revealed just 287 using locks, meaning that 61% of bikes were unsecured!

If you want to keep your bike, the best advice is simple: Lock it up!

WATCH THE  
'HOW TO' VIDEO

## The facts about theft

Motorcycle theft remains a huge problem, both in the UK and abroad. Every year thousands of motorcycles are stolen and motorcyclists are disappointed and inconvenienced as a result.

- It takes approximately 12 seconds to steal an unprotected motorcycle.
- A motorcycle is stolen on average every 14 minutes.
- Approximately 70 motorcycles are stolen every day in the UK.
- Less than 14% of stolen motorcycles are recovered.
- Theft accounts for one third of insurance claims.
- 40% of owners who have their bike pinched give up on bikes.

### UNBELIEVABLY...

- More than half of all motorcyclists neglect to use any form of motorcycle security!

Always secure your bike with the lock positioned off the ground

## Advice

According to Police statistics, 50% of bikes are stolen by the opportunist or "Joy-rider". Incredibly, they also estimate that 50% of riders do not lock their machines. Reduce the risk of theft by following these simple steps;

- Buy the best lock you can afford and always use it.
- Alarms can be very effective but only really effective when in conjunction with a lock.
- If you have a garage, always use it and remember to lock the bike and set the alarm - otherwise cover your bike when outside.
- When parking your bike try to avoid using the same parking spot every day and lock your bike to a secure immovable object, such as a ground anchor.
- Never leave your lock resting on the ground and always lock it as tight to your bike as possible - this makes it much more difficult for thieves to attack.
- Remember to maintain your lock. Keep it free from dirt, and oil moving parts regularly. If your lock stops working, you won't be able to lock your bike.

## UK Insurance security approvals Insurance discounts available

Oxford security products are tested to extremes in order to offer the appropriate level of protection.

**SOLD SECURE**  
APPROVED PRODUCTS

**Sold Secure** is an independent, non-profit making organisation dedicated to reducing the risk of theft by testing security products. The same methods of attack used by criminals on the street are replicated by Sold Secure in the assessment of security products. Many insurance companies offer substantial reductions to those who use **SOLD SECURE APPROVED PRODUCTS**.

[www.soldsecure.com](http://www.soldsecure.com)

**THATCHAM**  
VEHICLE SECURITY

The **Thatcham** Institute for Vehicle Security is recognised by insurers as the UK's leading tester of vehicle security products

Products with the **Thatcham** label have been demonstrated to comply with The British Insurance Industry's Criteria for Vehicle Security - the toughest set of standards ever to be applied to motorcycle locks and alarm/immobilisers.

As a result, many insurance companies offer significant discounts to those who use these Thatcham Approved Products.

[www.thatcham.org](http://www.thatcham.org)

## Other international approvals

Oxford offers a range of security products which have been tested and approved to various international security standards.
